

SCUBAPRO[®]

DEEP DOWN YOU WANT THE BEST

RENTAL PACKAGE CATALOGUE

MK2 EVO / R195

It's the perfect go-anywhere reg for divers who like to keep their diving simple and fun. The MK2 EVO is the only downstream piston-style first stage with internal components specifically designed to resist freezing in extreme cold water conditions. So you can expect top-notch breathing performance whether you're reef diving the Caribbean or wreck diving the Great Lakes. The R195 is a modern second stage design that combines a classic downstream valve with a large diaphragm, functional purge and VIVA switch for smooth and easy operation. For new divers as well as veterans looking for an economical regulator that's dependable and that can handle all water temperatures, the MK2 EVO/R195 is not just the best choice, it's the only choice.

SPECS

R195 OCTOPUS

A modern second stage design that combines a classic downstream valve with a large diaphragm the SCUBAPRO R195 Octo also features a functional purge button and VIVA switch for smooth and easy breathing and simple operation. The full high-visibility yellow cover and extra-long hose with reversible attachment make it easy to see when it comes time to share air with a buddy in need. A sensible safe second stage for all divers, the R195 Octo is also perfect for deco tanks thanks to its extra-long hose and reversible hose attachment. It also features an ultra-comfortable orthodontic mouthpiece, a rugged reinforced technopolymer casing, and durable metal valve housing.

T-ONE BCD

Technical Information

The new T-One front-adjustable BCD is targeted to the global rental market. It is simple in design, easy to use, and provides substantial lift capacity, making it the ideal choice for beginners during their dive classes, as well as for avid recreational divers who prefer to rent their dive gear when travelling to prime dive destinations. The T-One is also built rugged, able to stand up to intensive use under extreme conditions. It retains the same reliable bladder design as the current T-One but features a new EndurTex high-tenacity nylon fabric. The BCD comes with backpack padding, generous cargo pockets with Velcro closures, two octo pockets and the familiar standard plastic buckle tank cinch.

FEATURES

- Targeted for global rental market
- Simple design, easy to use
- Substantial lift capacity
- EndurTex high-tenacity nylon fabric
- Rugged construction for intensive use
- Back padding for maximum comfort
- Generous cargo pockets with Velcro closures
- Two octo pockets for safe storage
- Color-coded tags for size identification
- Balanced Power Inflator (BPI) included

ECO FULL SUIT

The **SCUBAPRO Eco Full Suit** in 2.5mm thickness is a warm-water wetsuit designed for comfort and flexibility. It features a 2.5mm polyester two-sided material, a straight back zipper with a pull tab leash, and is 100% black with silver thread accents. The suit is unisex, using a men's cut, and has an "S+SCUBAPRO" logo on the front.

• FEATURES

Material: 2.5mm Polyester (two sides).

Cut: Unisex, using a men's cut.

Color: 100% Black with silver thread for style.

Closure: Straight back zipper with pull tab leash.

Branding: Features an "S+SCUBAPRO" logo on the front.

Intended Use: Designed for warm water diving, offering flexibility and comfort.

Additional Features: The design focuses on comfort and flexibility.

Seams: Likely flatlock stitched for comfort and to prevent chafing.

Zipper: The zipper is designed for easy donning and doffing, with a durable slider.

Collar: Features a comfortable raw-cut collar.

ZOOM MASK

The Zoom is a low volume dual-lens mask that is ideal for all divers, but is especially well-suited to divers who use optical lenses. The mask has a new lens-change system that enables you to switch lenses yourself, without tools, in less than a minute. Featuring spray-painted sub-frames in colors matching Seawing Nova fins, HYDROS PRO BCDs and the UPF Collection of rash guards, steamers and leggings, the Zoom offers a universal fit and includes an integrated buckle design that is compatible with the Comfort Strap.

FEATURES

Silicone near the mask frame is thicker and firmer with a matte finish for additional support and rigidity.

Convenient lens-change system for divers who use optical lenses.

Lens-change system lets you change the lenses yourself, without tools, in less than a minute.

Ultra Clear no-tint glass provides optimal clarity under water.

Low volume design makes clearing easy.

Universal fit ensures a comfortable, watertight fit.

Integrated buckles make adjustments easy.

Equipped with a standard silicon strap and compatible with optional Comfort Straps.

Optional accessories like a HUD hands-free dive computer mount adapter, color kits and optical/bifocal lenses are also available.

Replaceable Optical Lenses range from -1.0 to -8.0 (in .5 diopter increments). Lenses are interchangeable and will fit either the left or the right side.V

SCUBAPRO

ESCAPE SNORKEL

The splashguard barrel-top design of the **Escape** helps keep water from entering the large-bore barrel while allowing abundant airflow. Included with this easy-to-use snorkel is a very efficient purge valve located down low, an ultra-comfortable regulator-style mouthpiece and a convenient clip for quick removal from your mask strap.

FEATURES

Splashguard top design helps keep water from entering the large-bore barrel.

Flexible, corrugated section is easy to use and drops away from face when not needed.

Ergonomic mouthpiece enhances comfort during extended swims.

Purge valve positioned at the lowest point requires only a quick breath to clear any errant water.

Quick-connect clip makes it easy to attach or remove snorkel from mask strap.

SPECS

Snorkel Type	Semi-Dry
Activity	Snorkeling, Recreational
Purge Valve	Yes
Features - Snorkels	Quick-Connect Mask Clip, Angled Purge, Ergonomic Mouthpiece, Corrugated Lower Tube
Flexible Tube	No

SCUBAPRO

GO SPORT FINS

SCUBAPRO's GO Sport fin features a "boot-fit" design, enabling divers who wear boots when giant-striding into cold water or negotiating rocky shore entries to benefit from the proven kicking performance of the original Tester's Choice-awarded "bare-fit" GO fin. Lightweight yet virtually indestructible, this fin is a fast and nimble performer in the water. The blade has been slightly revised from the original; it now provides mounting points to attach skegs that minimize sideslip and maximize stability. The self-adjusting bungee heel strap allows for a versatile fit. The strap also makes it easy to don and doff. The GO Sport is designed to fit in IATA carry-on compliant luggage, making it a great fin for both travel and local diving.

SPECS

Fin Type	Blade, Open Heel
Activity	Recreational, Professional Services, Travel, Technical
Material	Monprene
Heel Strap Type	Marine-Grade Bungee
Buoyancy	Positive
Features - Fins	Ergonomic Foot Pocket, Extra-Small Sizing, 25° Pre-Angled Blade, Power Bars, Lightweight, IATA Carry-On Compliant
Color	Turquoise/Aqua
Weight	2.87 lb
Length	19.33 in
Width	8.31 in
Foot Pocket Length	9.65 in
Foot Pocket Width	3.54 in
UPC	4048336414654

DELTA SHORT

The ultra-comfortable DELTA 3MM SHORT BOOT is designed for tropical diving and snorkeling. Low-cut and lightweight, with just the right amount of protection, it slips on and off without the need for a zipper. It's the perfect footwear for diving in warm water with adjustable fins.

FEATURES

Provides full-featured foot protection for warm water diving.

Light comfort sole offers good protection without being stiff or heavy.

Can be comfortably worn with adjustable fins.

3mm thickness with rubber sole for added comfort.

Slips on and off without zippers.

SPECS

Boot Type	Low Cut
Thickness	3 mm
Material	Nylon/Neoprene
Closure	No Zipper
Sole Type	Ultra-Grip Sole
Weight	0.9 lb
Activity	Recreational

MAKO KNIFE

The **MAKO TITANIUM** knife is so light and compact you won't even know it's there, yet its titanium blade is incredibly strong, resists rust, and has the hardness to take and hold a sharp edge. The MAKO TITANIUM offers a multi-function blade that includes a serrated edge for sawing through rope, a conventional edge for making clean slicing cuts, a line-cutting notch, and a bottle opener. The Tanto tip, with its angled shape, is one of the strongest knife points available. The knife's handle offers plenty of gripping area as well as thumb guards to keep the knife from slipping. Included is a locking sheath. This is an excellent corrosion-resistant, maintenance-free, general-purpose dive knife.

SPECS

TITANIUM

Type	Fixed
Blade Material	Alpha [Hardened]Titanium
Weight	0.4 lb
Activity	Recreational, Professional Services
Blade Type	Serrated, Smooth
Tip Style	Clip Point
Line Cutter	Yes
Sheath	Injection Molded
Blade Length	3.5 in
Blade Length	8.9 cm

STANDARD WEIGHT BELT

The SCUBAPRO Standard Weight Belt is crafted from durable, long-lasting materials built to withstand the rigors of the underwater environment. Its quick-release buckle ensures easy donning and doffing, even with thick gloves, while offering peace of mind with its secure closure.

FEATURES

Durable Construction: Built to last, ensuring reliable performance dive after dive.

Quick-Release Buckle: Allows for easy and secure adjustments, even with gloves.

Comfortable Fit: Designed to conform to your body shape for maximum comfort during extended dives.

Customizable Weight System: Accommodates a variety of weight sizes to achieve perfect buoyancy.

SPECS

Material: High-quality nylon webbing.

Buckle: Available with either a durable stainless steel or a lightweight nylon quick-release buckle.

Width: 2 inches (5 cm).

Length: 59 inches (150 cm).

Weight: 4.51 oz (128g).

Colors: Black, blue, and yellow.

Features: Embroidered with the Scubapro "S" logo, quick-drying fabric, mildew and odor resistant.

Buckle Features: Stainless steel buckle is corrosion-resistant.

Activity: Suitable for freediving and recreational diving.

STANDARD WEIGHT

The standard 3lbs (about 1.3kg) threadable weight belt weights are ideal to slide on your weight belt or put in your BCD pockets. They're the standard size with two large holes to slide them on or off your weight belt.

Most divers use these to make up the bulk of their weight. For small weight adjustment we recommend the 0.5kg or 1kg ingots.

PANDORA ARON RESQUE LIGHT

The Pandora Aron Rescue Light is a versatile light designed for diving and outdoor activities, featuring a compact and durable build with a sealed head unit. It offers a bright 900 lumen output and is waterproof up to 200 meters, with an operational depth of 80 meters. The Aron Rescue also includes a distress marker dye compartment for emergency signaling.

FEATURES

Ultra-Bright Illumination: The light is designed to provide a strong, high-intensity beam for maximum visibility in low-light and emergency situations.

Durability & Weatherproofing: Built to withstand harsh conditions, including rain, snow, and extreme temperatures, with a rugged construction.

Compact & Lightweight: Easy to carry, pack, and use in various settings.

Reliable Battery Life: Provides long-lasting power for extended use.

Waterproof: Submersible up to 200 meters.

Multiple Modes: Offers normal and fast/slow strobe modes for signaling and emergency situations.

Sealed Head Construction: Unique to Pandora Lab lights, the sealed head allows for easy cleaning and drying after flooding.

Emergency Marker Dye: Features a sealed compartment for environmentally friendly marker dye, which can be used for signaling.

Versatile Use: Suitable for diving, camping, and biking.

SPECS

Brightness: 900 Lumens

Waterproof: 200 meters

Operational Depth: 80 meters

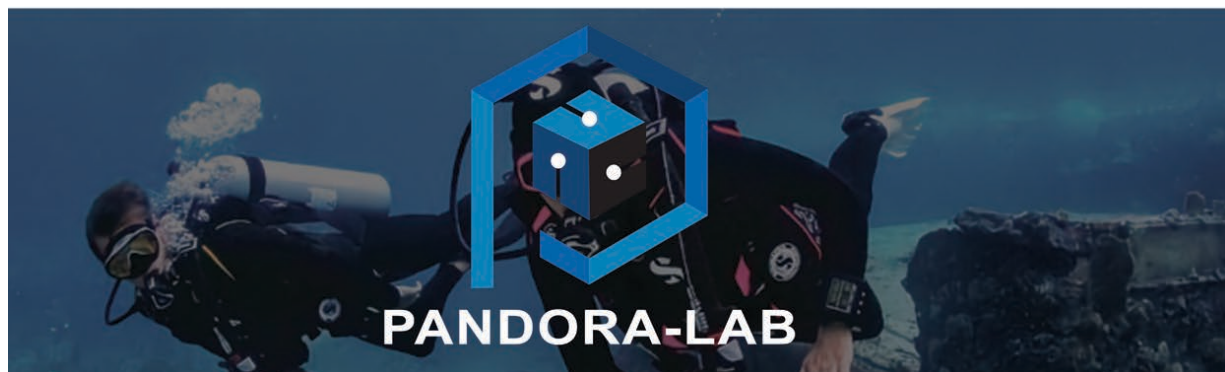

Features: Sealed head unit, distress marker dye compartment

Additional Features: Compact and durable design, can be used for camping and bike riding

Power: Requires separate battery and charger

Colors: Available in black, blue, and pink

Other Accessories: Wrist strap sold separately

HIGH DEFINITION DUFFLE BAG

his rugged gear transport duffel is simple yet highly practical. It is made of heavy-duty material for maximum durability, yet is lightweight and folds easily. The bag features a double-slider U-shaped zipper for easy gear loading and unloading, compression straps with buckles for security, and both side handles and double duffel straps that make easy work of lifting and carrying.

FEATURES

Duffel is made of heavy-duty 1000D nylon with a PU coating.

Double-slider zipper and U-shaped opening makes it easy to load and unload dive gear.

Wide webbing compression straps with buckles are provided for additional security.

Side handles and double duffel straps make easy work of carrying the bag.

Duffel is also designed to accommodate select-sized plastic gear baskets (not included).
