SEA 20 Cordless Hand Vacuum

Cordless hand vacuum for vacuuming and cleaning smaller dry areas in the garage, workshop or car.

SE 33 Wet and Dry Vacuum with Blower

New STIHL Vacuum for your home use. Versatile thanks to the wide range of accessories: Switchable floor nozzle for flexible changeover between wet and dry vacuuming, blow function by moving the suction tube to the exhaust port, ergonomic two-part suction tube .

HT 56 Telescopic Pole Pruner

Don't let overgrown branches loom over your property. Prune them with the redesigned STIHL HT 56 C-E pole pruner. It features a lightweight gearbox that enhances maneuverability and user comfort.

HT 135 Telescopic Pole Pruner

Powerful and lightweight pole pruner provides high-speed precision that makes it easier to use while pruning. For professional tree maintenance and orchard plantations.

MS 162 Chainsaw

The lightweight and maneuverable MS 162 features reduced exhaust emissions and an anti-vibration system for increased operator comfort. The Master Control Lever™ allows you to operate the choke, throttle lock, and on-off switch with a single lever making this tool an ideal homeowner chainsaw.

Product will be available in 3rd quarter

MS 182 Chainsaw

The powerful, easy-to-use STIHL MS 182 chainsaw, for homeowners. This chainsaw is equipped with toolless fuel and oil caps with retainers, offering a simple and convenient method to tighten and loosen oil caps without the use of tools. Featuring a Master ControlLever™ and an anti-vibration system.

Product will be available in 3rd quarter

MS 212 Chainsaw

The MS 212 offers the right balance of power and accessibility to make it ideal for frequent use around the home. Whether privately sawing firewood, gardening and landscaping, for minor maintenance work or building with wood in the trade: the powerful STIHL MS 212 petrol chainsaw supports you confidently in various tasks. Even the felling of smaller trees is possible.

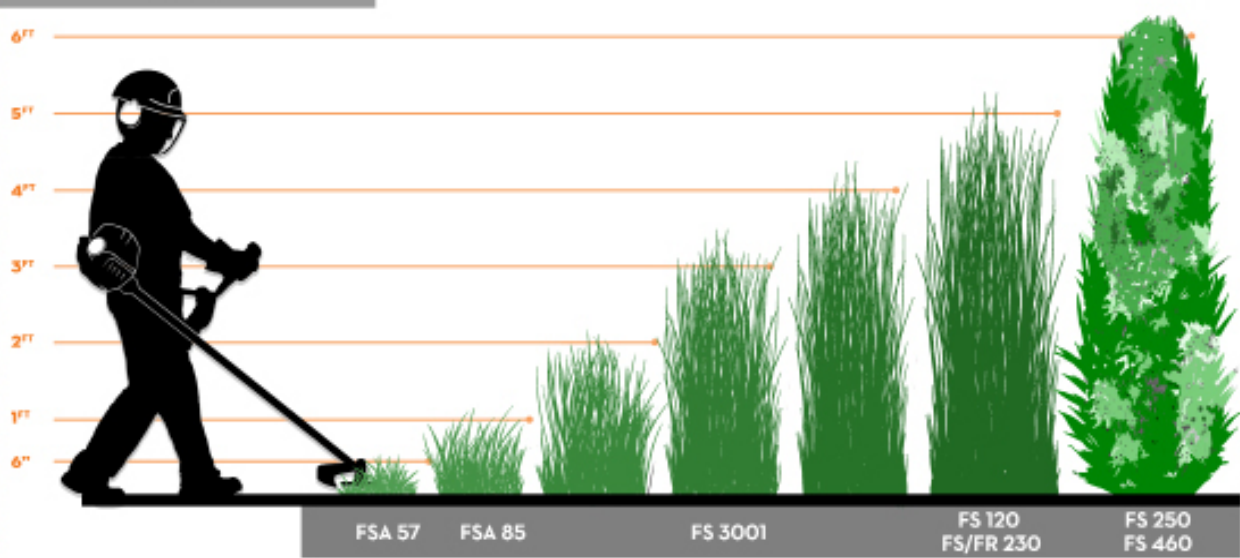

Product will be available in 3rd quarter

BRUSHCUTTER SERIES

STIHL brushcutters for home owners, farmers and professional users a powerful and robust tool, the ideal partner in clearing grass and removing weeds, and can even take on thickets and bushes. Mowing small to large areas made easy thanks to STIHL Brushcutter.

BGA 300

High performance, commercial-grade backpack blower featuring Noise Reduction System and long run times

The BGA 300 backpack blower offers powerful performance and commercial-grade durability. It features the STIHL Noise Reduction System with long run times and little to no maintenance for efficient operation. With its high-performance brushless motor, the BGA 300 delivers a powerful 26 Newtons blowing force and 192 MPH air speeds for heavy-duty clearing of both dry and wet debris in a virtually maintenance-free package.

Blowing Force in Standard Mode: **26 Newton**
Runtime (w/ AR 3000 L): **Up to 140 mins.**
Max. Air Velocity: **192 mph**
Battery System: **AP System**
Weight: **7.5kg** (w/ AR 3000 L): **17 kg**

High-quality guide bars for your chainsaw

Hardened bar rails - Symmetry - Ematic System

GUIDEBAR

**MADE IN
GERMANY**

STIHL Carving E

Carving bar with a solid stellite-tip. For wood carvers. Extremely low kickback.

STIHL Duromatic E

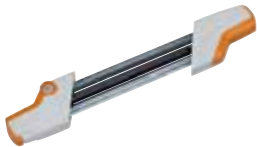

Solid bar for chain saws in the middle and high performance range. Exceptionally hard-wearing. Bar nose is protected by carbide alloy playing.

STIHL FIX CUT 31-2

(2 - lines or 4-lines)

For abrasive soil conditions.

One-piece magnesium alloy attachment that resists wear better than plastic heads in abrasive soil conditions, such as sandy or volcanic soils, with no moving parts to lose.

Spool for Autocut 25-2 / 27-2.

Stainless steel metal protection in the main wear area with 30 mm

MOWING LINES

STIHL mowing lines for all STIHL mowing heads.

Made of abrasion-proof, long-lasting elastic material and come in different shapes, profile and diameter.

TIPS: BEFORE USING MOWING LINES:

Before using the mowing line, soak it in the water for 24 hours to keep it flexible!

It helps the mowing line last longer.

Round 4.0 mm Ø		87 m	FixCut 31-2	1,500.00	0000 930 3603

TIPS: MOWING LINE LENGTH, SHORTER PROPER LENGTH CUTS FASTER!

While it seems counter intuitive, the proper “shorter” length of nylon line actually gets the job done faster!

The reason behind is that a long mowing line slows down the engine due to the bigger load.

STIHL Brushcutters with integrated length limiter makes sure that you have the optimum mowing line length for your machine.

TIPS: THROTTLE TRIGGER OPERATION FUEL SAVINGS AND LESS WEAR

Using full throttle can minimized wear and tear in terms of clutch assembly clutch drum and tension spring

Fuel saving can used half throttle depends on application

USING MISTBLOWER
KNOWN AS “COLD FOGGING”

STIHL ULV NOZZLE:
5-25 MICRON DROPLET

AQUA RESIGEN

P6,000 / bottle, PN# 102713

**price subject to change without prior notice*

Active ingredient: Permethrin (pure 25:75, public health grade) 102.6 g/L + S-bioallethrin (pure) 1.4 g/L; Piperonyl Butoxide (pure) 97.9 g/L.

For Indoor / Outdoor use. Safe for Pets*

Recommendation

50 ml : 1L water
For 1 hectare

0.65 mm ULV nozzle

RESIGEN EC

P6,000 / bottle, PN# 102713

**price subject to change without prior notice*

Active Ingredient: Permethrin 173.1 g/L + S-Bio-allethrin 7.2 g/L + Piperonyl Butoxide 155.9 g/L

Emulsifiable concentrate formulation for the efficient use to control flying insect pests such as dengue carrying mosquito, flies and other flying insect pest.

DELTACIDE

P6,000 / bottle, PN# 102713

**price subject to change without prior notice*

Active Ingredient: Deltamethrin 0.5%, S-Bioallethrin, Piperonyl Butoxide

New Generation of synthetic pyrethroid for the effective control against dengue-carrying mosquito and all flying and stored product insect pests. Combining rapid knockdown and kill.

Suitable for dilution in water, diesel or kerosene and application as an ultra low volume (ULV) aerosol, thermal fog or mist.

FARM BIOSECURITY AND PEST CONTROL USING MISTBLOWER

FENDONA SC
(Active Ingredient: 15 g/L Alphacypermethrin)

*A high performance Residual Insecticide

*Provide extended control of a wide range of public health pest such as cockroaches, houseflies, mosquitoes, ants and flour beetles at low dosage rates.

1 box: 1 liter per bottle x 10

ACTELLIC 50 EC Pest Control Grain Management

1 L : n/a : Code

**price subject to change without prior notice*

LESS 10% - 12 pcs

Used in over 70 countries worldwide for Protection of stored commodities from pest attack.

Actellic is an insecticide and acaricide. Controls more than 20 species of pes such as Coleoptera (beetles and weevils), Lepidoptera (moths), Acarina (mites).

8-20 ml of ACTELLIC protec 1 ton of grains

Sack Spraying for 100 sq.m

1:50 (50ml to 2.5L water)

1:25 (100ml to 2.5L water)

Spray time

Standard #3: 1.9 min

Standard #4: 1.2 min

Residual Misting for 500 sq.m

1:30 (500ml to 15L water)

Spray time

Standard #3: 11.5 min

Standard #4: 7.4 min

Standard #5: 5.8min

Mistblowers and sprayers

Systematic crop protection - Dengue Prevention - Spreading

Discharge Rate is based on angle of 0 degrees.

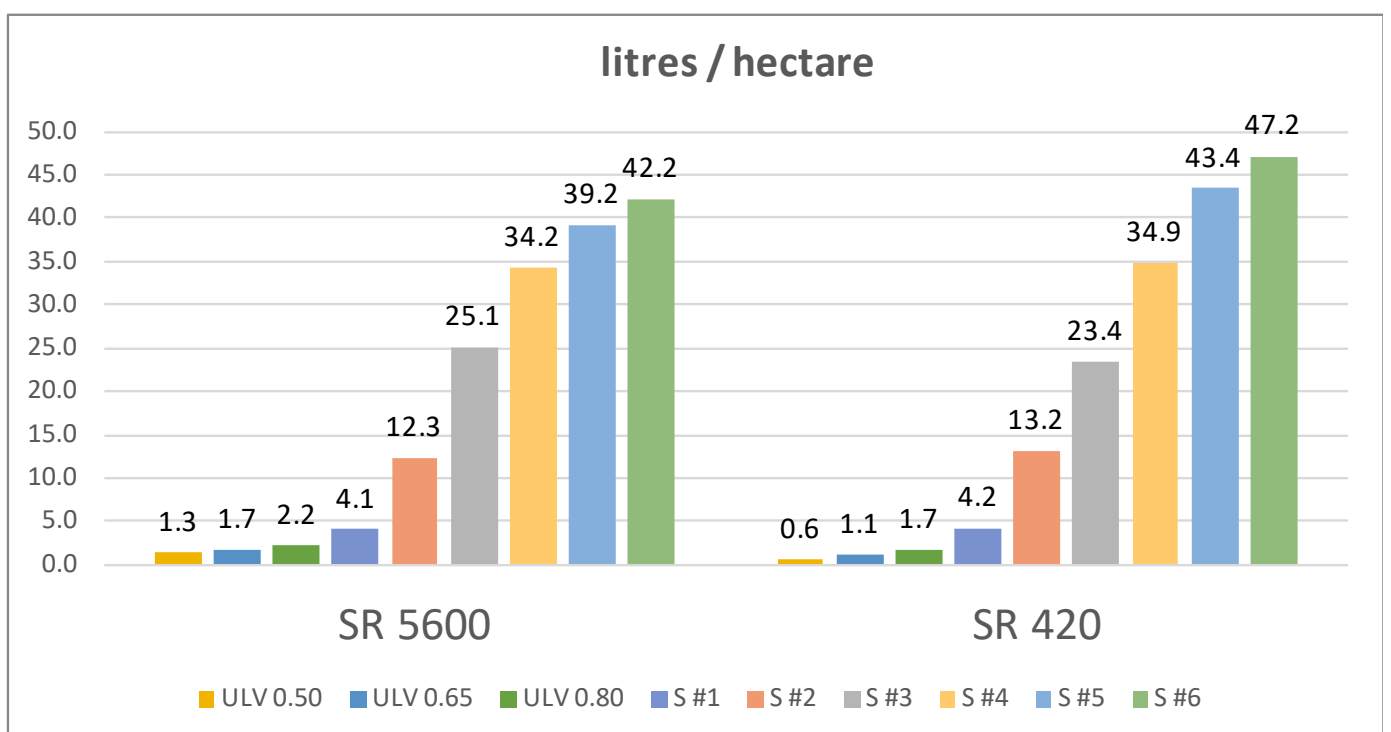

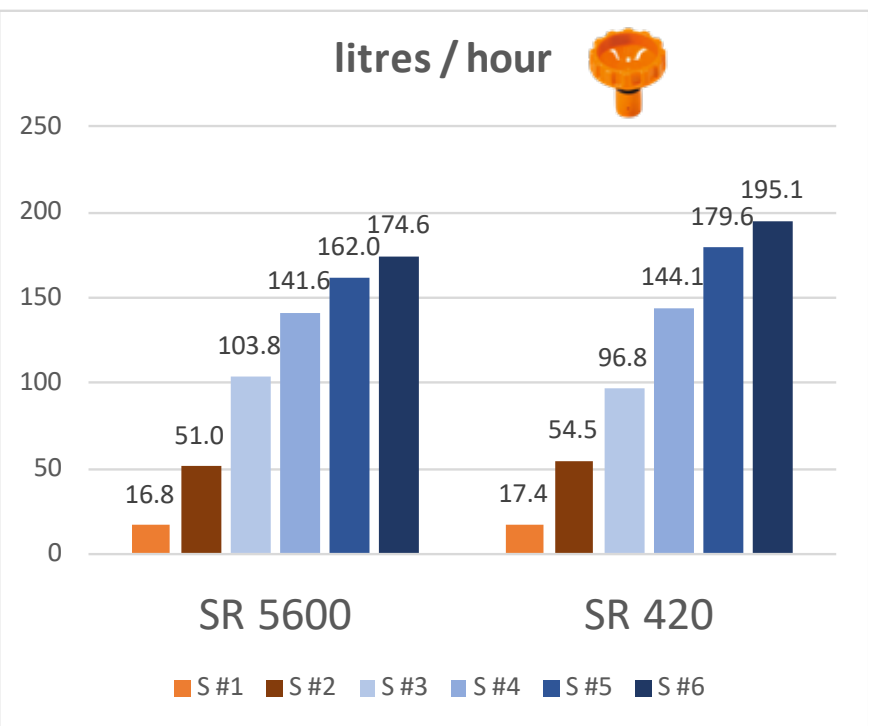

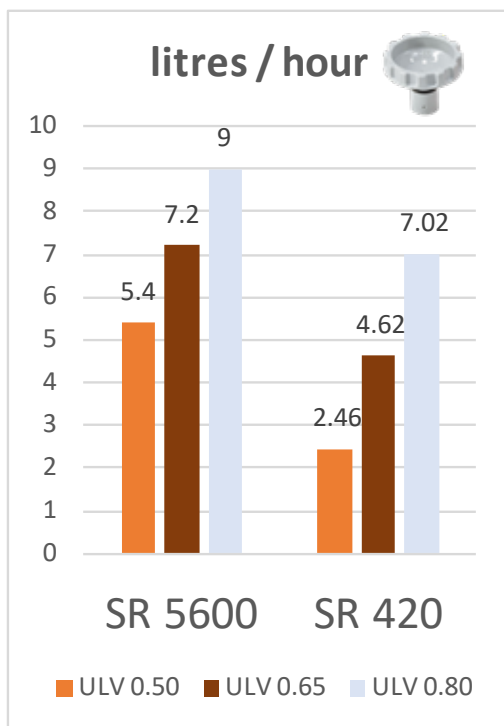

Discharge Rate varies depending on the blower tube angle

ULV Nozzle comes in 3 sizes. 0.5mm, 0.65mm and 0.8mm

Standard Nozzle have 6 settings (S #1 to S #6)

Values are based on theoretical estimates. Chart should serve only as a rough guide

Litres / hectare is based on the assumption of walking speed 4.1kph

STIHL China - Quality “Made by STIHL”

“Made by STIHL” is a brand promise – no matter the location of production. So STIHL and China have been a very successful combination for many years. Since 2006, our plant in Qingdao has been proving that tried-and-tested STIHL quality can also come from China. The secret? Production processes, quality standards, occupational health and safety standards, and environmental standards at STIHL are equally high all over the world.

New plant, high standards

A ground-breaking ceremony in 2005 marked the birth of the first STIHL production site in China. The move was the logical next step in our international manufacturing strategy. The factory in Qingdao, located 600 kilometres north of Shanghai, has assembled brushcutters, hedge trimmers and chain saws for the entry-level segment since 2006. “The new plant makes products under German management and using proven manufacturing technology. Of course, we have tested our local Chinese suppliers thoroughly and have chosen ones that meet our high quality standards,” stresses Dr Bertram Kandziora, Chairman of the Executive Board of STIHL.

**STIHL stands for top quality products and service around the world
- that's what our customers expect**
